

## **Business and Employment**

### **What information has been collected?**

Names and addresses, of the more obvious business premises, together with details of businesses listed for business rates in the Parish.

These will provide the list of those to receive the Business and Employment Questionnaire

### **What have we learned from the Survey?**

Home working appears more popular than first envisaged.

Broadband speeds were the main focus of comments.

Links to other group topics like transport identified along with general infrastructure comments, meeting rooms/place.

### **What further information do we need to start thinking about a plan for the future?**

Businesses Questionnaire results and home workers feedback will provide the next level of details and comments from the business and employment perspective.

(A maximum of two sides of A4 is all that is necessary.)
